# ANTI-MICROBIAL HYDRATION STATION

**Chilled Or Unchilled**

Acrokool's anti-microbial hydration station offers a hygienic solution to keep staff and patients hydrated safely. Our use of special grade stainless steel means it is easy to maintain and to clean. We have designed the dispensing area specifically to fit one plastic cup size to eliminate personal bottles touching the spout. The water dispenser is approved by the UCLH anti-infection unit.

Environmentally  
Friendly

Antimicrobial  
Copper Piping

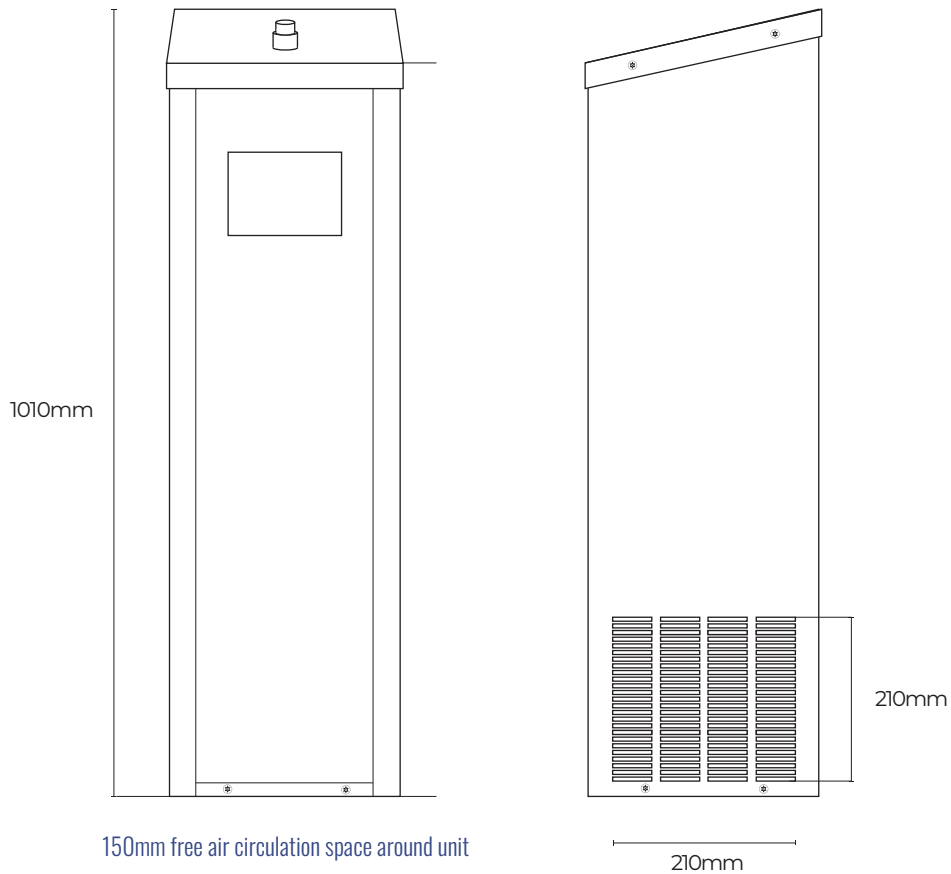

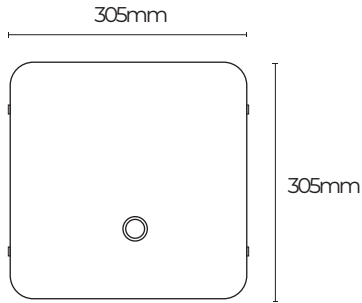

Durable materials,  
tamper proof

Designed & Manufactured in the UK
